Support for families

Hi

I am sending this email to support the application that support for families have put in for new premises.

This organization has been a great help to my family, they stepped in to support my granddaughter when she is going through a very difficult time in her young life. No one else wanted to help us and we were told there was very little resources for counselling in the Stirling area, they have been a great support to my granddaughter and new premises would be a great advantage and help to this support network, I can't thank them enough for the help they are giving my granddaughter.

Yours sincerely
