Subject: Letter of support for S4F

Hi [REDACTED]

Hope you are doing well.

I am writing this in support of Support 4 Families, a charity based in Stirling that helps families affected by drug misuse. They are growing each week, helping the children who are mostly affected by the misuse of drugs. Ourselves at A1bion Taxis, work alongside them, helping the children get to and from days out. They take the children to days out all over Scotland, the children love going to the Braehead Community Garden, helping out and teaching them how to grow and care for vegetables and plants. Helping keep them off the streets, not sitting at home playing computer games or facing what they have to deal with each day at home, getting them out in the community helping others. They are working hard within the Cornton community, having their base there would benefit each and every participant.

The Family Hub would be a huge success for them, helping more families in the community, as you may know Cornton and some surrounding areas are lacking in support for these families. Having a local base with a garden and much bigger floorspace would help them to grow even bigger and help more families. The current facilities are based in St John Street, which is lacking in all of the above and can be a lot of hassle for the children getting to the base.

The team is amazing, they put their whole heart and soul into helping these families, feeding the children, teaching them so much about their communities and how to be children.

The Family Hub would be an ideal place for them to call base, with the facilities that you have there, they could make a safe place for the families that they support and will continue to support and grow.

Many thanks
