Subject: PLUS'S NEW PREMISES

Hello,

As plus's existing building is just about out of lease, they are looking at a property that you have. Hopefully they will get it as plus is a god send to me and my family as for my son who is autistic it is a safe environment for him to relax and be himself. He enjoys all of his time there with all of the staff which do a remarkable job of helping our young children enjoying life a little bit more. I think that a permanent place for plus would be very beneficial to the children giving them the assurance that plus will be there every week, as the children do not like change. With this being permanent it will reassure family's and the children that plus will be open every week. There are not very many places that I can take my child to locally that are safe and that I can confidently leave him with the staff to enjoy his time. Plus is all of this and more.

Yours sincerely
