Subject: Support for asset transfer - PLUS FV

Hello ,

I am writing to support the application by PLUS Forth Valley for the asset transfer. PLUS Forth Valley is such an significant part of many families lives and having a secure base to allow them to deliver the work they do is very important. We work with young people who engage with PLUS and the impact PLUS has on, not only the young person, but their families is massive. A permanent bases for PLUS will help secure the continuation of the work they are already doing for so many. The need for the purchase has been highlighted recently with the notice they have been given at their presence premises. Families need stability and they need to know that PLUS is in a permit place so they can continue to access all the incredible work they do.

Kind regards,
