Plus

Dear [REDACTED]

I am writing to you to say how important Plus is to my family. As a mother of a child with severe and complex medical needs the support and care that Plus has given to us is immeasurable. Sadly they are about to lose the building they have and the knock on effect to my family and the many other families they support will be catastrophic if they cannot find another location. We have to look after my son 24 hours a day and Plus give us a space where for a few hours he can be looked after in a safe and secure location allowing us a short respite. Not only that they support our children in the local community allowing them to participate and join in with different activities. I know other groups are canvassing for this building but the needs of the children who access Plus make it harder to find suitable spaces for them to utilise. Please keep us in mind.

Kind regards
