**Subject:** PLUS

I have had the pleasure of working with PLUS for just over 1 year, and I can say with 100% confidence that it is an organisation that will truly utilise the space.

Having spent the majority of my first year in post getting to know all the wonderful families and young people we support, an overarching theme has been how invaluable plus is to them.

Recently having been on the cusp of losing our current premises, the detriment of not having a space was highlighted and the potential significant loss that rippled our plus community was evident.

I have over 10 years experience in social care, but I can honestly say the last 1 has been my favourite, and this is due entirely to the staff that plus employs, the families we support and the wider community that share our values.

Having this building would mean we could continue to deliver and expand this invaluable service. A service which is required to ensure a safe space and an environment for our supported individuals to continue to thrive.

Thank you for your time and I am hopeful you will consider our future.
