Subject: PLUS

Good evening

My name is [REDACTED] and I am writing to you to express my support for PLUS and their request for an asset transfer of the Family Hub building in Cornton, Stirling.

PLUS is an invaluable asset for the Forth Valley region providing essential support for young people with disabilities and their families. PLUS enable children and young people to feel part of a community that understands their needs, where social bonds are developed through fun and holistic child centred care.

There is no place like PLUS for local children with disabilities and due to insecure tenure I am supporting their application for an asset transfer to ensure that we do not lose this vital service for our area.

If PLUS are successful, this will bring stability to the organisation like they have never had before. This will impact the families in an extremely positive way knowing that they are not going to be subjected to another change (which I'm sure will be unsettling for many) due to risks of using private rented accommodation for their services.

PLUS would be able to establish itself locally and enter a new phase where the worry of insecure tenure and rising rental costs are no more. This can only bring positive outcomes for children and families both now and in the future.

PLUS changes lives for the better. They are uniquely skilled and experienced at supporting some of our community's most vulnerable young people. At a time when budgets are constrained, families need this support and stability more than ever.

PLUS create jobs and volunteering opportunities for local people and those with lived experience of disabilities. They provide high quality training and support for individuals to enable them to thrive. Bringing these opportunities to Cornton would also help to bring jobs to this and neighbouring areas where job density and opportunity is low.

The peer support and connection that PLUS creates allows families and carers to share their experiences and support one another. The Hub would enable PLUS to develop their services and give them the best experiences possible.

I cannot express how much the community needs an organisation like PLUS and desperately hope that they are successful with their bid.

Kind regards
[REDACTED]
