Subject: PLUS Forth Valley - Cornton Hub asset transfer

Good evening

our son has been extremely fortunate to work at Plus for the past 17 months.

As a member of staff he has received very good training in order to carry out his role to a high standard, been incredibly well supported allowing him to grow in confidence. Thus, he's remained a loyal employee, wanting to give back to his employer in recognition not only for the great opportunity he has been given by this wonderful organisation, but because he truly believes in and has seen first hand, the great work that Plus does for those families and people in our community who depend on the organisation.

Plus is an incredibly important organisation, offering much needed respite care for parents and a safe place for vulnerable children, young people and young adults to be looked after in a caring and fun environment with extremely well trained staff who care passionately for what they do and the people they look after.

There will be so many children, young people, young adults and families negatively impacted if Plus are not successful in securing this asset transfer and are evicted from their current premises. This is incredibly short sighted of our community if this is allowed to happen. These people deserve to always be able to access this organisation and benefit from the great work it does supporting people to be given opportunities and new experiences to help them get involved in every day activities many of us take for granted.

It would be a very bleak day if our community were to lose Plus. The organisation has to be given the opportunity to secure new premises and move seamlessly so they can continue to focus on delivering the great work it is currently doing.

I personally know a family who for many years have accessed the support Plus offers and have heard from them first hand just how incredible and organisation Plus is from their perspective and how much help they have received.

We sincerely hope PLUS Forth Valley is afforded the security so well deserved to continue to do the great work they do for our community!

Kind regards
