Subject: PLUS Forth Valley- asset transfer

Dear [REDACTED]

This email is in support of PLUS Forth Valley's asset transfer request for 'The Family Hub'.

PLUS FV's contribution to the communities of Forth Valley, and particularly Stirling, have been well established for many years. The support to children and young people with disabilities, and their families, is highly valued, and often described as 'a lifeline'. Securing 'The Family Hub' will enable PLUS to continue to provide meaningful activities that increase quality of life for users of the service. Adding to the value and sustainability of PLUS, this will create new opportunities to build positive relationships, encourage peer support and contribute to good citizenship while enabling inclusive communities.

My own involvement as a young volunteer started when the organisation was first established in 1988. The support and nurture I received at this young age, were the building blocks to pursue a career path in social care.

Kind regards
[REDACTED]
