Subject: Fwd: Plus - Building Application

Hi [REDACTED]
>
> My name is [REDACTED]
>
> I am writing this email to you to put forward why I think PLUS should be considered for the building application of the Corton Hub.
>
> PLUS as an organisation brings so much joy and happiness to kids and their families. As a father where my son is autistic I have experienced this first hand. Through PLUS my son has been able to make relationships with friends and come out of his comfort zone. As a father to see the joy that my son has because of PLUS is something that I could not thank them enough for.
>
> My wife also works for the company and has a strong connection with them. The people that PLUS employ are so passionate at what they do and bring joy to so many children's and families lives. By arranging activities and bringing joy into these kids lives (as I say I have experienced it first hand)
>
> You may not be aware but PLUS have recently been advised they will no longer have their current premises and are searching for a new home. I feel your location would be perfect for PLUS to continue the good work they do for people and also the community. They are such a fantastic organisation and I really hope you consider them to be the ideal candidate to have their new home at the Corton Hub.
>
> I hope this email finds you well and I really appreciate the time you have taken to read this email.
>
> Many thanks
