Subject: Plus - Cornton Family Hub

Hi [REDACTED]

I have a daughter who uses Plus. Their current location in an industrial area, is really not appropriate for children for learning disabilities. I have had an opportunity to visit the Cornton Family Hub building, and perceive it would be an ideal building and being based in a community area, will be so much better for Plus and their service users.

Plus had a recent scare, where the landlord wanted to evict them from their current location, so moving to a more stable location where the organisation can stay for the long term, so as the Cornton Family Hub, which will be much better.

Regards
