Subject: Support for S4F ownership at the hub

Good evening,

I am writing to advocate support for families and plus request to move to the HUB at Cornton vale.

This service has such a benefit to an under privileged community with support to vulnerable children, and teenage girls affected by adverse childhood experiences. The new facilities would give them more scope to include outdoor activities enabling their users to grow nurture and educate on growing their own food, incorporating cooking and baking. Simple tools to encourage a healthier lifestyle.

I have raised funds through the Renal unit in Forth Valley Royal hospital for S4F on different occasions, and attended several of their events including Halloween and Christmas parties (including my partner playing Santa) S4F has such a positive impact with the children and carers. Not only providing the children with a safe space but changing learned behaviour with positive reinforcements for them.

The Staff provide an amazing support network for the service users with minimal support. As a professional I have seen firsthand the impact of Drug and alcohol abuse has on families and the stigma associated with it on the family.

It is imperative that we and the community support this service.

Any further information required please get in touch.
