**Subject:** The hub

Hi [REDACTED]

I'm writing a quick statement with regards s4f.... I have used the services of this lovely club/organisation for 14 years with being a kinship carer to my 2 grandchildren who were 3 and 4 and who are now 17/18 . This club was the only respite I ever had which I so much needed at this time. The kids loved attending and I had a cuppa and a breather with other service users in similar situations. The premises were not ideal but we sort of coped. The hub would be ideal for the usage of s4f as they have many kids families and clients for counseling time out and fun times for the young. The hub would open so many much needed space and opportunities for s4f to go forward and help the people who need to access their services. Many thanks [REDACTED]
