**Subject:** Support for Families

Good Morning [REDACTED]

Years ago I used to be a community childcarer and childminder. This meant I used to come to Cornton Prison to facilitate looking after a few children that were staying on Prison grounds and bring them to my house for the day. Giving there mums time and for the baby/child to spend time in a homely environment. I loved supporting this initiative.

Fast forward a few years and I'm now supporting children in schools ([REDACTED]). I also was working with support for families until Covid hit the world. The support they give families, as you can imagine is so important. I've also thought the charity itself doesn't receive enough recognition, partly because of where it's situated. Your facilities will give the children outside space and be more accessible for families in and around the wider community.

I'm keeping my fingers and toes crossed that they are successful in securing these premises, and I'm sure working with support for families you will soon realise that you can work in collaboration and they will support any children and families you support in your facilities too.

Please consider them, this will open doors for them and yourselves. Like you facilitated community childcare with children in your establishment to me, I hope you'll consider with Support for Families.

Thank you  
Yours sincerely
