Plus

Hi there ,

I won't to express that I am in full support of plus using the Cornton as a space for children of all ages to excess. The Cornton is easy for get to with safe grounds for the young people to enjoy. I am the grandparent of a boy with autism and I work within the special needs sector for another authority. Plus is a fantastic organisation offering support for vulnerable children and their families, it gives families either rest-bite or a network with other parents who experience a different life from the norm!! Plus is so passionate about getting it right for their young people and families, us as a family would be lost without them!

Regards
