Subject: Relocation of PLUS services

Dear [REDACTED]

I am writing as the aunt of a young adult who requires and uses the services the above provide.

Without PLUS, which he has used for years, he would not get the freedom to meet and play with his friends on a regular basis. Neither would his mother receive the much needed respite, knowing her son is safe and secure within the care of the highly qualified staff.

The loss of this service would be catastrophic to many families in the local area. Not to mention the prospect of unemployment for many people.

I am sure I am not the only one who is writing to you to ask that you give a great consideration to granting their application for use of your building. Needless to say, we will all be hoping for a favourable outcome.

Thank you for taking the time to read this email.

Yours,

[REDACTED]
