Subject: SUPPORT FOR FAMILIES CHARITY

Good Afternoon [REDACTED]

I sent the email below yesterday but unfortunately predictive text sent it to the wrong email address! I really hope I am not too late to offer my support to the above charity?

My name is [REDACTED] and I live at [REDACTED]

I have seen a notice on the door of the hub and would like to give my backing for "Support for Families" charity to occupy the hub.

I was brought up in the Cornton and from someone who has lived all her life with addiction in my family I feel this charity would benefit the people of the Cornton. I would have loved somewhere like this to go to when I was younger and struggling with my parent's addiction.

The Cornton has always been a great place to grow up but has struggled in recent years with so many cuts, clubs closing and with the cost of living really affecting people, the rise in alcohol & drug addictions are taking a toll on families and their mental health. Having somewhere like this to get a break, to forget for a bit, to be able to talk/think about anything else and to just know they are not alone would make such a difference to the people suffering with addiction.

I know unless you have lived with addiction, it can be hard to fully understand the affect it can have but please believe me this charity being so close would make a massive difference to someone's life and future. Therefor I would really appreciate that you please give this charity a massive consideration.

Thank you for your time.
