Subject: Support for PLUS

Good evening, [REDACTED]

I wanted to write to affirm my support for PLUS in respect of the family hub in Cornton.

I have worked for Plus in the past and can attest to the benefits their services bring to children, families and the community. My own Godson, diagnosed with autism, now accesses services and these make a massive difference to him and family.

The number of children on the workload for the social work disabilities team in Stirling is growing exponentially. These children and the families they belong to need help to maintain family cohesion. More than this, these kids need to have fun and know it's ok to grow up with a disability.

Plus are one of the few organisations equipped and experienced to make a difference. However, the lack of a stable building is no foundation from which to grow. By securing the family hub, Plus can continue to do amazing things for dozens of children in Stirling and the surrounding areas.

I hope that you will also consider the long service record of this charity in the local area when making your decision.

Kind regards,
[REDACTED]
