Dear [REDACTED]

Thank you for giving us the opportunity to write to you and try to relate the importance of PLUS to not just our family but the wider community.

PLUS has been supporting my niece [REDACTED], now 13 for around 10 years. [REDACTED] suffers from a rare chromosome disorder called Williams Syndrome.

PLUS has provided my sister and family with an unimaginable amount of support, advice and respite. The family support has been incredible, allowing [REDACTED] to socialise and mix with similar minded peers, where she is totally relaxed and at ease. Her brothers gain some one to one time with their mum and dad whilst their parents are reassured of [REDACTED]'s safety and happiness.

PLUS provides the community with invaluable love, friendship and kindness. A service that would be sorely missed if sadly PLUS had to close their doors.

The community hub would be an incredible building, central for the whole local area. Providing security not only to the clients but also to their families and not forgetting all the incredible staff that are employed to provide this amazing service.

Thank you for taking the time to read my message.

Kind regards,  
[REDACTED]
