Subject: PLUS

I am sending this email in support of PLUS being able to secure the use of a building near to Cornton prison. I have lived in Stirling for 24 years and my children were raised here. We know many families who have been greatly supported by PLUS, which has been a lifeline for them. I do not see this service as a luxury but a necessity for families who I know are struggling. The security of a safe environment will help PLUS continue to support so many children and families who just need to have somewhere to turn to for help and understanding.
