**Subject:** PLUS Forth Valley

Plus is an organisation with people at the heart of it. The opportunities it provides the children and young people it supports is invaluable and contributes greatly to the well-being of the entire family unit. I have worked for the organisation for almost 14 years and in that time I have seen the organisation grow and develop exponentially. As an employee, I have to be honest, and it may sound trite, Plus is more than a workplace. It is a place where people are supported and nurtured and embraced. I know several ex-colleagues who have changed their entire career path after working just one summer at PLUS! I have gained a wealth of knowledge and experience during my time within the organisation and I have always been encouraged to learn and enhance my skills. Acquiring the Cornton Hub would allow us to develop our services and increase our capacity. We would be able to support even more children and families, widen our reach and continue making a positive impact on the local community.

Kind Regards,
