PLUS Forth Valley

Dear [REDACTED]

I wanted to add my support to those of others who have a connection with PLUS, and who are hoping for a positive outcome in the decision over new premises.

As someone who is passionate about care for our most vulnerable children, I know that PLUS is unique. The team provide support and respite which simply cannot be done by any other third sector organisation in Stirlingshire.

As CEO of a Young carers organisation in Fife I would love to have access to a charity with PLUS's resources, compassion, and expertise but in Fife we aren't so fortunate.

I feel that any support you could give to PLUS would be literally life changing - for young people with disabilities and for their families. The third sector is unfortunately facing many challenges at present, but I hope that with the Prison Services support PLUS can find a new home and some certainty for its young people and families.

kind regards

[REDACTED]
