Subject: Building for PLUS

Hi

This is an email to support PLUS with the potential new premises.

PLUS is a vital part of the Stirling community and supports many local families. Having a local premises, suitable for the children and young adults is essential for the charity to continue running. I know it would mean so much to the families but also to the staff that work with PLUS if they are successful. It would mean a safe place for the young people to have time away from their families and a social life of their own while their families have some needed respite.

Kind regards
