Subject: Lease of Cornton Family Hub

Hello [REDACTED]

I am writing to you about the Plus Forth Valley application to take over the lease of the Cornton Family hub in Cornton, Stirling.

I understand that Plus Forth Valley have been put in the difficult situation of having to find new premises for their support hub. The base in Corton would be a fantastic opportunity for them to secure a future venue for their family centred services in Stirling which offer a vital meeting point for young adults, carers and families whose lives have been affected by autism.

I have been aware of the services of Plus for a number of years through a close friend that has relied on their support as a parent and carer for their son who has learning difficulties. I can't stress enough the importance of this charity to many families. Unfortunately, many people who rely on this charity are very overwhelmed by their situations and do not have the time to send messages of support like this in order to fight for much needed facilities. I am sending my support on their behalf in the hope that Plus is given the chance to create an essential space in the community for all those in need of their fantastic services.

I hope their application will be considered favourably as these families have to fight for so many things in life. To know they have a secure home hub for the future will be so important for them and one less thing for them to fight for.

Many thanks
